ABOUT ME

I am a 19-year-old who is currently studying at the University of Birmingham. Would like to work in the world of engineering in the future. Particular fields include AI and computer visions engineering.

Enjoy sports, taking part in more than 3 sports during school. Was the tutor group rep for my sixth form tutor group which involves listening to ideas and organising events. Also organised a Tough Mudder fundraiser, raising £1510 for Cancer Research UK.

SKILLS

Communication- Gained from many years of being in football and hockey teams.

Keen to learn- Took part in multiple work experiences and a summer placement.

Computing skills- Can code in python to a high A-Level standard, have learnt java at University and used C++ during my placement. Am also experienced in CAD.

EDUCATION

University of Birmingham

Computer Science with AI.

First year, 82%.

A-levels

Mathematics- A

Physics- A

Computer science- A*

GCSEs

Mathematics- 9

Physics- 9

Chemistry- 9

Computing- 9

Biology- 8

Geography- 8

Product design- 8

Business- 7

English Language- 6

English Literature- 5

EXPERIENCE

A summer working at XOR systems- June - September 2025

Created a task for a work experience student to undertake. This project was for the student to set up an STM32 micro-controller to move a platform to a specific location on its axis using a stepper motor. Done using a linear encoder and a Renishaw laser XL-80 system to error map and ensure the highest accuracy possible. Used Linux and C++.

Reference: jeff@xor.uk

A week of Renishaw work experience

Worked in a team to create a prototype of a green energy machine using computer aided design software and a 3D printer and presented the prototype to a audience using Power Point and a printed prototype.

Online work experiences

Took part in an Atkins online virtual work experience and a Spectris virtual work experience where I took part in project planning tasks and computing tasks.

The Wotton Break charity shop

Carried out a variety of jobs for an hour a week for a year.

Working at Morrisons and as a barista

Worked at Morrisons as a customer assistant; I worked here from June 2024 to July 2026. Also worked as a barista whilst in year 12 (2023/24) for roughly a year.

Developed communication and time management skills.

Bronze, Silver and Gold DofE

Completed the Bronze, Silver and Gold certificate. Included 9 months of cooking, 6 months coaching brother's football team, years of playing sports, volunteered at the Wotton Break charity shop and a week of NCS (an outward bound residential).

Other accomplishments include: Achieved gold twice on the UK bebras logic challenge putting myself in the top ten percent in the UK. Received the GC holland award for achieving the highest marks in my school year on computer science papers.
